

power Saving for AIR CONDITIONOR

<p>Features:</p>	<ul style="list-style-type: none"> ▪ Power Saving upto 40%. ▪ Suitable for Window/Split A.C. upto 2 Ton. ▪ Protects the compressor from Surges & Spikes. ▪ Based on micro controller with intelligent software. ▪ User Friendly. ▪ Two years Guarantee.
<p>Do's and Don't :</p>	<ul style="list-style-type: none"> ▪ Ensure proper sealing of doors and windows. ▪ Clean AC filter every month. ▪ Use film/tinted glass on windows. ▪ Operate the ceiling fan in conjunction with your window air conditioner to spread the cooled air more effectively throughout the room and operate the air conditioner at higher temperature. ▪ Leave enough space between your air conditioner and the walls to allow better air circulation. ▪ Don't place lamps or TV sets near your air-conditioning thermostat. The thermostat senses heat from these appliances, which can cause the air conditioner to run longer than necessary. ▪ Plant trees or shrubs to shade air-conditioning units but not to block the airflow. A unit operating in the shade uses as much as 10% less electricity than the same one operating in the sun.
